

2017

SO PLEASED TO SEE YOU!

The show season took our crew all across the continent this year and, as ever, it was a real pleasure to catch up with so many old friends and to make a lot of new friends.

Our tour this year included many the industry's largest and busiest events: AED, ConExpo, ISRI, Waste Expo, National Heavy Equipment Show, AWEA and AORS. We were gratified by the number of customers (and dealers) who took the time to drop by our exhibit and say hello. Your visits gave us the chance to answer a lot of questions and to learn more about your challenges.

Some of the more common issues that came up were the problems fleets encounter on equipment that don't have automatic lubrication, as well as explanations of how autolubes work and how a single point system can be the simplest and fastest way to get started. Our name seems to be getting out there, as we also met with several equipment dealers and service shops who are interested in becoming part of BEKAWORLD.

We always look forward to seeing you but don't feel you have to wait for a show to get answers to your technical questions. If you're looking for help or simply want to discuss your equipment, you are welcome to email our Product Manager, Dave McDougall anytime (dmcdougall@beka-lube.com). Dave and his team are more than ready to help you out.

About BEKA

BEKA is today's leading global brand of automatic lubrication systems for industrial, over-the-road and off-road applications. Since 1927, BEKA has been trusted by equipment manufacturers and owners for high quality, innovative central lubrication systems. BEKA and its dealer network delivers on the BEKA promise of environmentally friendly, trouble-free products that increase component life, reduce repair costs and increase the value of your equipment. We measure our success by your up-time.

In 2016, Beka-Lube Products Inc. became part of Baier + Köppel GmbH + Co. KG, of Bavaria, Germany, the manufacturer of BEKA-branded central lubrication systems. In America, BEKA systems are marketed and supported by the international BEKAWORLD LP group. For more information about BEKA lubrication systems in Canada or the United States, please contact:
